

BROKEN EARTH WINERY

NV Broken Earth *Miss Stella*

VIN DE VIE - This is a Mistella style (fortified grape juice) made from Black Muscat grapes. It is quite pungent on the nose and very floral with hints of lychee.

The juice itself has not been fermented so it is very sweet. It is 16.5% alcohol (due to addition of fortifying spirit) which balances the sweetness nicely.

The style is technically called a "Mistella" but is classified by the TTB as an "Angelica."

It has a pale apricot color and would suit anything from fresh fruit and berries to dishes with a syrup or sugar glaze.

This is a chance to be daring!
