

# NURTURE WINES

SUSTAINABLY GROWN · RED WINE BLEND

This surprising red blend is available under four different labels describing elements of the wine's sustainability:

**nur-ture cher-ish con-serve sus-tain**

We all aspire to do more, to reduce our impact on the Earth. Our endeavor is to support the long-term ecological balance in the production of wines. Starting in the vineyard by using sustainable vineyard practices, such as soil rehabilitation and water conservation, to producing the wines in a solar-powered wine facility, and finally by using eco-capsules and corks for packaging. It's all these components that bring this sustainable wine together.

The wine is a blend of several varieties with Merlot as its driving force. Loads of blueberries, plums and dark fruits abound with an easy drinking palate that draws you back for more. Subtle oak influences support the 'fleshy' fruit on the palate and great length of flavor, completing the package. The style is meant to be as all encompassing as possible, allowing serious wine drinkers to indulge as well as those drinking for simpler pleasures.

  
CHRIS CAMERON, Winemaker

## TECHNICAL NOTES

Alcohol.....13.5%  
pH.....3.52  
TA.....6.10

UPC: 8 16441 01320 8
