

QUADRANT®

BLEND OF FOUR VARIETIES

Estate Grown

2013 Quadrant PRB *White Blend*

This unique blend has a perfumed bouquet of lavender with hints of pineapple and honey. The complexity of these aromas, and their reflection on the palate, can be explained by the components of the wine itself. Careful and judicious use of oak further adds to the wine's structure.

The dominant characters are derived from the majority Viognier grape, as it adds melon and apricot to the mix on the palate. Chardonnay adds texture and weight with the addition of peaches to the profile. Subtle textural notes are provided through the small additions of Grenache Blanc and Albariño.

The wine delivers a flavour-packed array of fruit and it is beautifully balanced with refreshing natural acidity although it also shows its soft side. The versatility of the wine allows it to accompany a varying menu of food types. It is truly unique and a very rewarding drinking experience.
